PROJECT GRADUATION

WHAT IS PROJECT GRADUATION?

SCS Project Graduation is an initiative to increase graduation rates and strengthen college and career readiness in students grades 9-12. With both in-person and online learning options available, Project Graduation classes offer the teacher-student interaction that many students need for academic success. Because these classes are offered during evening hours, the student's regular school schedule will not be interrupted. Students can earn up to four credits in a single semester through participation in Project Graduation for any of the following reasons:

Credit Redemption

To earn credit in a course previously failed to boost students' GPA

Accelerated Graduation

To complete new coursework that will help overage for grade students graduate on time

College/Career Focus

To free up room in their day schedule for classes that lend toward a college and career focus

HOW CAN MY CHILD TAKE ADVANTAGE OF PROJECT GRADUATION?

SCS Project Graduation (PG) is open to students in all SCS schools, as well those who attend charter schools and municipal districts.

Consistent with the current SCS COVID-19 safety measures, classes will either meet in-person or virtually on Mon/Wed and/or Tues/Thurs from 4-6 pm and 6-8pm.

SCS students attend PG at no cost. Tuition for charter & non-SCS students is $200 per whole credit course; $100 per half credit course. Parents should contact their child's school for payment details.

After a guidance counselor creates the student's PG schedule, the counselor will give parents details on how to attend a virtual orientation to complete their child's registration.

PG classes start February 8, 2021. Contact your counselor to register now.
